

Steps to Opportunities, Academics & Readiness (SOAR)

Selkirk College has a diverse offering of programs to meet the learning needs of adult students. There are many options available that lead to certification and develop transferable skills for adult living and employment. Our mission is to nurture interdependence and independence through meaningful learning. Our programs build upon learners' unique personal strengths, confidence, self-awareness and skills.

Selkirk College has a diverse offering of programs to meet the learning needs of adult students. There are many options available that lead to certification and develop transferable skills for adult living and employment. Our mission is to nurture interdependence and independence through meaningful learning. Our programs build upon learners' unique personal strengths, confidence, self-awareness and skills.

OUR TEACHING AND LEARNING PHILOSOPHY

The SOAR program includes hands-on, experiential education designed to prepare students for success in a variety of workplace, volunteer and community settings. Students are exposed to a blended learning platform that includes foundational academic and life skills that are essential for developing life-long learners.

GET STARTED TODAY

We believe in giving learners the chance to flourish in a supportive college setting. It is important we take the time to get to know a prospective student, so an individual plan is developed to foster success and appropriately meet the needs of the student and programming.

LET'S CONNECT

Find out more from the instructor in your community and set up an intake interview. Visit us online for more information.

“College has helped me with learning how to cook and be more independent.”

—Tyler, Nelson Campus

“I am proud of learning the cash register and talking more with customers.”

—Owen, Trail Campus
