

Target Audience

- Alumni
- College community
- Current/Future students
- Whole community

1. Participation from Schools to present a Mini U on September 17th, 2016 (8-11AM).
2. Schools responsible for the development of ideas, coordination of support from within their department for volunteers, etc – the committee can assist with set-up support and (possibly) some funds for materials, etc; there may already be some materials available to support various activities (i.e. from Get Connected).
3. In order for this to work, we need Chairs to take to their school planning days and/or other opportunities to engage faculty/staff in idea generation & commitment to the day. To include current/returning students (ideal), this would require coordination ASAP.

Some suggestions for School activities:

- SEG
 - Cross cut
 - Other lumber jack games
 - GIS Geocaching
 - Orienteering
 - Drone flying
- UAS/ABE/Business
 - Race type things
 - Potato sack race
