

Selkirk College

Pharmacy Technician

The Pharmacy Technician program at Selkirk College provides students the education to work as pharmacy technicians in community and hospital pharmacies.

PHARMACY CAREER

Pharmacy Technician jobs are expanding and there is currently a shortage of qualified technicians. Fast track your career in this certificate program. Designed for your success and awarded the status of Full accreditation by the Canadian Council for Accreditation of Pharmacy Programs (CCAPP), our classes are technologically advanced, student-centered and convenient.

Pharmacy technicians work collaboratively with Pharmacists and other health care professionals in both hospital and community pharmacy settings. Pharmacy Technicians' practice is broad and includes assisting in the process of dispensing medications, compounding pharmaceuticals, preparing aseptic products, computer data entry and much more!

Our online program with face-to-face labs has an excellent reputation for upholding the high standards required in the pharmaceutical field and is recognized by many pharmacists, pharmacy organizations and health authorities across the country.

THRIVE WITH

- Small class sizes
