

Early Childhood Care & Education

By entering the Early Childhood Care & Education (ECCE) program, you choose a flexible career path with many options. Courses are offered in a mixed delivery format, with many available online. Complete your certificate and go on to work in a variety of settings or attend a second year to complete your Human Services Diploma.

NURTURE CHILDREN'S GROWTH & DEVELOPMENT

As an Early Childhood Care & Education (ECCE) student, you will study many facets of early learning and child development, focusing on the needs of children from birth through school-age and their families. ECCE students learn how to develop programs and create environments that are child-centred, nurturing and rich with potential for early development.

INTERACTIVE LEARNING ENVIRONMENTS

Selkirk's ECCE instructors work hard to provide students with opportunities for learning theoretical concepts and applying knowledge in practicum experiences throughout the region. The instructors are committed to excellence and to providing the most up-to-date information, values and skills to facilitate the growth and development of children from birth to school age.

MAXIMISE YOUR EMPLOYABILITY

ECCE graduates quickly find employment in childcare centres, preschool programs, young parent programs, programs for children with extra support needs, family literacy programs and more. Selkirk has close ties with childcare programs in the region and job opportunities often result from the school's field placements.

Early Childhood Care & Education Program Pathways

* NOTE: Students can also transfer from an ECCE or CCSW certificate into the Human Services Diploma (Social Service Worker Specialty) though they may need additional courses and should contact a program instructor.
 ** NOTE: Students planning to transfer into a degree program MUST check the transfer requirements of the receiving institution.
 + An optional Mental Health @ Addictions Associate Certificate is available with all Human Services Diploma specialties.
