The Selkirk TESOL program was a terrific experience. The instructors were knowledgeable and encouraging, and it was a pleasure to work with them. The program really helped prepare me for what lie ahead when I started teaching overseas, and I feel I had a step up on my peers because of it. Best of all was how close the class became over the course of a semester. We were a tight knit community and forged close friendships because of it.

RICHARD SKINNER, TESOL GRADUATE TEACHING IN KOREA

Bottom right: After graduating from the Selkirk College Teaching English to Speakers of Other Languages Program, Sara Howard landed a job in Thailand where she teaches at a government high school. When she is not in class, Howard has the opportunity to explore the culture of Thailand and places like Wat Phu Khao Thong in Ayutthaya.
