

Thank you so much for your support! I am so grateful for this help, school has always been a struggle, but all the teachers have been so accommodating that this has been a very positive experience so far and I am inspired to keep going! Being relieved of some of the financial burdens means a lot to me so thank you so much!!

With gratitude,
Jesse Lyons

Thank you so much for your support. I have wanted to pursue this dream for a long time, and am so excited to be in my first year of college for a Bachelor of Science in Nursing.

I hope one day to specialize in maternity and infant care and eventually provide in-home postpartum support. This financial aid is so helpful in supporting my journey to become a registered nurse and pursue these goals. Thank you again!

With gratitude,
Evangeline

I am writing to express my sincere gratitude for this generous bursary. I am currently pursuing a degree in web development with a focus on backend development and management.

Receiving this bursary has been a great help in relieving some of the financial burdens of my education, and I am incredibly grateful for your support. It has given me the confidence and motivation to continue working hard toward my goals.

Your generosity will have a lasting impact on my future and I am determined to make the most of this opportunity. Thank you for supporting me in my academic endeavours and for believing in my potential.

Sincerely,
Tyler Pompu

Thank you so much for your generous contribution to my education! I am from Quadra Island, BC. I am currently attending the Fine Woodworking Program at Selkirk College and am very excited to return to Quadra Island and continue toward my goal of creating beautiful custom furniture, windows and doors for residents of the outer islands!

Your contribution will allow me to work fewer hours in the upcoming semester and focus more fully on immersing myself in my academic journey!

With gratitude,
Zoe Tehennepe

Thank You! This bursary is providing financial relief while I focus on my academics.

I graduated from Avon View High School in Nova Scotia in 2014. After high school, I spent my time working in retail and gained the position of marketing strategist for a large international retailer. This inspired me to return to school to study marketing.

I grew up in Windsor, Nova Scotia, a town known for hockey but that also has a very strong snowboard community. The dream of heading west has always been there. I have now called Kamloops home for three years and am excited to grow my family and career here.

I am in the Web Development Program and upon completion I intend to operate my own digital marketing agency, effectively combining my credentials and growing my local business community.

Cheers,
Ryley
