"Selkirk College has all the great things about a smaller school such as small class sizes and instructors that really want you to succeed... As I work toward my Registered Professional Biologist designation, I am pleased with my experience at Selkirk. It has given me a head start with field work, project organization, and how to write a proper plan."

EMMA THOMPSON,
 INTEGRATED ENVIRONMENTAL
 PLANNING GRADUATE

Change the world.

ENVIRONMENT & GEOMATICS

Do you want to play a role in preserving our environment through informed land management? Are you tech savvy and want to invest your skills in this rewarding sector? At Selkirk College, we focus on experiential, hands-on, outdoor learning to help students successfully along their ideal career pathway.

EXPERIENCE:

- Programs integrated with internationally recognized research centre
- First-hand practice in outdoor classroom
- Diverse and complimentary courses
- Solid mentorship from instructors who are current professionals
- Mastery of a range of applied environmental technologies
- Real-world work experience and networking through co-op opportunities
- Complete your degree at Selkirk College by adding GIS, remote sensing and data science to your environmental diploma
- Additional transfer opportunities to related degree programs at Royal Roads University, Thompson Rivers University, Vancouver Island University, University of Northern British Columbia and others
