# INDUSTRY & TRADES TRAINING

I'VE ALWAYS WANTED TO **HAVE A HANDS-ON CAREER.**

Build a strong future with a career in the trades. Learn from industry experts and benefit from small class sizes, hands-on learning in renovated facilities and the opportunity to make connections in fast-growing industries. Business in the trades is booming, so you'll likely have your pick of jobs—locally and beyond.

## CARPENTRY FOUNDATION/APPRENTICE

Gain the technical skills and hands-on experience you need for a career as a carpenter by learning to lay out buildings and construct concrete formwork, floors, walls, roofs and stairs in compliance with BC Building Code standards.

## ELECTRICAL FOUNDATION/APPRENTICE

Learn analytical and technical skills, and prepare for a career as an electrician. Learn how to design, install and construct electrical power, lighting and control systems in compliance with provincial and national codes.

## FINE WOODWORKING NINE-MONTH CERTIFICATE

Combine creativity with technical skills to prepare for a career designing and constructing cabinets and fine furniture. Develop a variety of specialized techniques through classroom learning and in the shop.

## HAIRSTYLIST NINE-MONTH CERTIFICATE

Transform your passion for style into an in-demand career. Learn all the latest trends and develop industry skills. Gain hands-on experience with real clients in an on-site salon and through practicums.

## HEAVY MECHANICAL NINE-MONTH CERTIFICATE

Get hands-on experience in an on-site shop doing maintenance and repairs and installing components on trucks, commercial transport vehicles and heavy equipment.

## METAL FABRICATOR 23-WEEK TECHNICAL TRAINING

Take the first step toward a career as a metal fabricator with opportunities in manufacturing, shipbuilding, forestry, mining, construction, transportation, and oil and gas industries.

## MILLWRIGHT/MACHINIST NINE-MONTH CERTIFICATE

Learn how to operate and maintain machines and systems in various industrial environments. As a machinist, you'll be able to operate sophisticated machine tools.

## PLANT OPERATOR SIX-MONTH CERTIFICATE

Get the knowledge and skills required to operate, monitor and troubleshoot equipment and processing units. Touring plants in the area, you'll learn how they function and gain a job-ready understanding of their systems and operations.

## WELDING SEVEN-MONTH CERTIFICATE

Set yourself up with job opportunities in manufacturing, construction, transportation, resource extraction and resource development. Learn through a mix of classroom instruction and shop sessions.

## YOUTH TRAIN IN TRADES

If you're in Grade 12, you don't have to wait to get job ready. Get a jump start on trades training through Youth Train in Trades (YTT). Through this dual credit program, you can start working on Level 1 technical trades training while you earn credit toward high school graduation.

YTT programs at Selkirk College include Carpentry Foundation, Professional Cook Training, Electrical Foundation, Fine Woodworking, Heavy Mechanical Foundation, Hairstylist, Metal Fabricator Foundation, Millwright/Machinist and Welding.

- Hairstylist
- Heavy Mechanical
- Heavy-Duty Mechanic
- Metal Fabricator
- Machinist
- Millwright
- Plant Operator
- Welder

*Without taking my carpentry apprenticeship at Selkirk College, I wouldn't have had the theory or practical knowledge to start my own carpentry business. Memorable highlights from my time at Selkirk College include the conversations with instructors about their experiences as carpenters.*

—Jake Plater, Carpentry Foundations Program
