

94%

of students are satisfied with the **quality of instruction** they received at Selkirk College.*

“ Selkirk provided the quality of instruction and small class sizes that I sorely missed once I entered university! It enabled me to transition into the mindset and maturity level required to be successful. ”

Elina Alimkulov - 1996 Alumna

Elina Alimkulov entered Selkirk College in 1995 as a biology scholarship recipient. Once she completed her first year of University Arts and Sciences, Elina transferred to University of British Columbia where she graduated with a Bachelor of Science degree in Biology.

Today, Elina works as a Forensic Specialist for the RCMP National Forensic Services Laboratory. You can find her in the lab, responsible for interpreting and reporting DNA typing profiles for criminal investigations and providing expert witness testimonies in the court system.

Apply now for September entry.
